

Request for Child Passenger Safety Technician Re-Certification CEU
Let's Talk Teleconference: Side Impact Protection for Children and Child Restraints:
Making Sense of New Information
Wednesday, February 8, 2012
12:15 pm - 1:30 pm

Speakers:

Kristy Arbogast, PhD. is the Engineering Core Director at the Center for Injury Research and Prevention at The Children's Hospital of Philadelphia. In her position as a Research Assistant Professor in the Division of Emergency Medicine, Department of Pediatrics at University of Pennsylvania, Dr. Arbogast heads multiple projects on motor vehicle injuries in children including a focus on abdominal injury biomechanics.

David E. Campbell is the Principle at David Campbell & Associates, Inc., a firm consulting in the areas of infant and juvenile products including car seats. Also President of Angel Guard Products, Inc., manufacturer and distributor of an infant car bed for premature and low birth weight infants.

Learning Objectives:

- Differentiate pediatric injury patterns of side impact crashes compared to other types of crashes.
- Provide basic information for physicians regarding expected governmental regulations on side impact protection for children in child restraints.
- Provide strategies that the child restraint industry might use to meet federal regulations which may assist pediatricians who respond to inquiries from concerned parents.
- Provide anticipatory guidance concerning best practice recommendations for side impact protection in available child passenger safety restraints.
